

Document Reader Overview

Oxwall Document Reader plugin allows users on Oxwall and Skadate powered websites to open documents within the webpage.

Some of the supported document formats include:

- Portable Document Format (PDF)
- Plain Text (TXT)
- Microsoft Office Word (DOC, DOCX)
- Microsoft Office Excel (XLS, XLSX)
- Microsoft Office PowerPoint (PPT, PPTX)

Admin options allows administrator to configure whether to open documents in a page within the website or in floatbox on the same page. Furthermore, document links are updated to point to a path within Oxwall/Skadate website installation.

Document Reader Demo

Click on any of the document links below to open in a floatbox on [this page](#). Right click and select open in new tab to open the document in a page within the website.

PDF Examples
